Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Monday 01 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cloud and fog tonight. Some sunny spells developing on Tuesday.

This Evening and Tonight:
Becoming increasingly murky with low cloud and sea fog moving in from the coast. Turning chilly overnight with a chance of frost in any clearer spells, these mainly over western high ground. Minimum temperature -1 deg C (30 deg F).

Tuesday:
Widespread early fog lifting into low cloud this gradually receding towards coastal parts, with some sunny spells developing, especially in the west. Remaining cold and foggy towards coasts. Maximum temperature 6 deg C (43 deg F).

Outlook for Wednesday to Friday:
Mostly cloudy and foggy Wednesday, with brief brighter spells. Rather cloudy initially on Thursday, perhaps with a short spell of rain followed by clearer, dry and cold conditions into Friday.
